SUMMARY

Full Stack Engineer with 2+ years of experience designing and deploying scalable web applications using the PERN stack (PostgreSQL, Express.js, React, Node.js) and Python. Proficient in building RESTful APIs, optimizing relational databases, and integrating modern AI/LLM features into full-stack architecture. Adept at Data Structures, Algorithms, and clean Object-Oriented Programming (OOP) principles.

Education

Bachelor of Engineering (B.E.) in Computer Engineering

Theem College of Engineering, Boisar, Maharashtra

CGPA: 7/10

Technical Skills

Frontend Backend: React.js, Node.js, Express.js, REST APIs, PostgreSQL, Tailwind CSS

Programming Core: JavaScript (ES6+), Python, Data Structures Algorithms, Object-Oriented Programming

AI/ML GenAI: Machine Learning, Deep Learning, Large Language Models (LLMs), Prompt Engineering

Tools Cloud: AWS, Docker, CI/CD, Git, GitHub, Postman

Work Experience

Software Developer (Full Stack Developer)

September 2025 Present

Ariantech Solutions Private Limited, Mumbai

- Developed and delivered the **Smart Assist platform** for **Jaguar Land Rover (JLR)**, improving customer support workflows, analytics, and operational efficiency.
- Engineered the **Interactive Designer Tool** for **Aurionpro**, enabling users to design and generate personalized **PDFs, Reports, Websites, and Videos** through an intuitive drag-and-drop canvas interface.
- Integrated **AI-powered design generation** using Large Language Models (LLMs), allowing users to create complete layouts and content through natural language prompts.
- Built secure bulk document generation workflows with **encryption, password protection, and dynamic data mapping**, ensuring enterprise-grade security and compliance.
- Optimized high-volume processing pipelines capable of generating and delivering **millions of personalized communications** in large-scale batch operations while maintaining performance and reliability.
- Contributed to **AI model training and fine-tuning** using proprietary platform data and templates to improve design recommendations, content generation accuracy, and personalization capabilities.
- Built scalable full-stack applications using **React.js, Node.js, Nest.js, PostgreSQL, and AI-driven technologies**, designing secure REST APIs and optimizing system performance.
- Led end-to-end development, including UI architecture, backend services, database design, cloud deployments, and CI/CD automation while collaborating with Product, QA, and DevOps teams.

Software Developer (Full Stack Developer)

July 2024 August 2025

Neuradigi Technologies Pvt. Ltd., Mumbai

- Developed and delivered key solutions including a **CMS Automation Portal** for **IndusInd Bank** and the **Helping Friends platform**, improving workflow efficiency and user engagement.
- Built dynamic UI components and integrated secure **REST APIs** using **React.js**, and **Node.js**, enhancing application performance.
- Optimized **PostgreSQL** database schemas for task management and messaging systems, improving data reliability and query performance.
- Contributed to Agile development cycles, performed code reviews, and managed deployments using **Git, GitHub**, and **Jira** while collaborating with cross-functional teams.
